Entry Beyond  
This Point

**Timetable:** First, you see the course code, which is the three letters followed by three numbers (ECE 157 CC).  
  
The last one-to-three letters you see (A, BB, TLC) indicate which section you are in. Programs are often split into more than one section, to make sure class sizes are not too big. Below the course code is the location of where your room is, which may appear differently depending on what campus you are attending.  
  
Some buildings are outside of the main campus. Here is an Outbuilding guide that will help you locate the room you need to be in.
